

Dear friends,

Once more I have to thank you all for your fantastic participation, dedication and effort to make sure The International Day became a great success...

Due to your encouragement, profesionalitie, enthusiasm and fantastic activities on stage, all of the visitors and l'Alfàs del Pi in general have lived a spectacular celebration of the International Day...

This is a proof of the integration and the multicultural aspects of our town and I really do have to say that I feel thankfull for having the wonderfull relationship I have with all of you, and proud of having you as residents of this town....

The International Day has become one of the most important, special and attractive events of the year... and a must in the calender.

On behalf of the Councillor for the Resident Community, Mrs Genoveva Tent and the Mayor, Mr Vicente Arques Cortés, **thankyou for making this event come true, thankyou for transforming l'Alfàs del Pi in a happy intercultural town...**this could not have been done without you...

Please pass on our appreciation to all of your members on our behalf..

With all my kindest regards,

THANKYOU ALL...
